

License Plates

Spot Color License Plates

Motorcycle License Plates

4-Color Process License Plates

Specialty License Plates

Promotional License Plates provide a cost-effective way to advertise a message to thousands of people on the road. Custom-printed vehicle dealership plates offer a powerful marketing tool to increase name recognition and bring in potential business. In states that do not require front plates on vehicles, vanity car plates are popular for schools, colleges, outdoor sports, organizations, clubs, and major popular brands. Choose from a variety of materials and sizes for license plates that demand attention.

Material Options Include:

- **White & Black Polyethylene**
- **White Polystyrene**
- **Weather-Resistant Poster Board**
- **Chrome Plate Finish**
- **Diamond Plate Finish**

On specialty plate materials, use white ink to increase opacity and contrast.
