

Deluxe Loyalty Cards

Deluxe Loyalty Cards are the perfect solution for applications requiring durable 4-color process printing with a rigid plastic card. These cards, key tags and badges are hot items in retail markets, service industries and for special events. Optional numbering or barcodes provide identification and tracking functions often necessary for loyalty programs. Numbering and barcodes are priced separately. Additionally, choose the matte varnish option if a pen receptive surface is required in either a flood or spot location.
