# SOCIAL DISTANCING FLOOR DECALS

Social distancing guidelines are driving the need for businesses to institute new policies to keep their teams and customers safe. In response to the growing need to promote safe distancing, we've created stock floor decals to help #stopthespread. These stock decals are produced in 1 day and are offered at a discount to and with lower quantities than our custom-printed Floor Decals. These will adhere to tile, linoleum and smooth, finished concrete floors. They are overlaminated to provide a slip-resistant walking surface.
