TAMPER-EVIDENT FOOD LABELS

The restaurant and food delivery industries rely on tamper-evident food labels to reassure customers the food items they order remain unopened during transit. In response to this trend, we have stock preprinted labels available in rolls of 100 for easy distribution. These matte paper labels feature several v-shaped slits that tear easily to indicate tampering and a spot to write the order number, menu item, or customers' name. The versatile permanent adhesive sticks to a variety of take-out containers and bags. These food delivery labels are available to ship in 1 day and priced at a significant discount. Contact us to quote custom options if desired.
